It Came From the New State

FOURTEEN MILES AWAY

THE VALUES SURPRISED THE OWNERS GREATLY.

The New State property, located fourteen miles southeast of this city in the foothills between Big and Little known. Cottonwood canyons, and on which a winze is now being sunk in the vein from the west drift off the tunnel level, may develop into a great bonanza.

One of the men employed at the mine came in a day or two ago and left a sample of the rock encountered twenty-three feet down in the winze that gave returns from the assayer yesterday which simply staggered Manager Wolstenholme. It went 46.35 ounces silver, 4 per cent lead and 218.25 ounces in gold, or \$4.516 to the ton, not counting the silver and lead values.

in gold, or \$4.516 to the ton, not counting the silver and lead values.

The returns were most surprising to the management, particularly as no free gold was visible in the rock. It is practically the same kind of quartz as was found in the drift above, but nothing as rich was ever taken out before. The streak from which it came is about eight inches wide, and as the vein itself has widened to three feet, with a little water coming in and the walls showing firm and true, Manager Wolstenholme feels that a little more depth will probably carry them into a greater quantity of pay rock.

Several rich shipments have been made from the New State, and it now gives every promise of doing better by its plucky owners than ever before. Samples of the rock from which the assay was made can be seen at Manager Wolstenholme's office.

This news will be very unwelcome to the many mining men who have interests in the several camps in the district, and will work a hardship upon many of them who have been in the habit of making weekly pilgrimages to the mines. The officers, however, are determined to minimize the chances for the disease to again become prevalent there, where it raged for several months last winter. Several towns in the valley below are already afflicted, and the passing to and fro of peddlers and residents of Tintic, whose families live in the settlemens, is a source of danger which the authorities propose to eliminate.

Lower Mammoth supplied all, or practically all, of the excitement at yesterday's call on 'change. It reached the highest price it ever sold at—\$1.51½—and then gradually fell back to \$1.42½ at the close. Grand Central made a clean advance of about 20 cents and sold at \$5.97½ and \$6. May Day weakened a little, all sales being made between 42 cents and 43 cents. Sacramento fell back half a cent, selling at 39 cents, and Silver Shield advanced to 26½ cents, with half a cent more than that offered at the close. Nothing could be more dramatic or devoted than the manner in which Miss Edith Williams, Box 36, Waynesville, O., cured her drunken father after years of misery, wretchedness and almost unbearable suffering

MISS EDITH WILLIAMS.

MISS EDITH WILLIAMS.

"Yes, father is a reformed man," she said, "and our friends think it a miracle that I cured him without his knowledge or consent. I had read how Mrs. Kate Lynch of 329 Ellis St., San Francisco, Cal., had cured her husband by using a remedy secretly in his coffee and food and I wrote to Dr. Haines for a trial. When it came I put some in father's coffee and food and watched him closely but he couldn't tell the difference, so I kept it up.

"One morning father got up and said he was hungry. This was a good sign as he rarely ate much breakfast. He want away and when he came home at noon perfectly sober I was almost frantic with loy as I hadn't seen him sober for half a day before in over fourteen years. After dinner he sat down in the big easy chair and said. 'Edith, I don't know what had come over me but I hate the sight and smell of liquor and am going to stop drinking forever. This was too mach for me and I told him then what I had One. Well, we both had a good cry, and how we have the happiest home and the kindest father you can imagine. I am so glad you will publish this experience. It will reach many others and let them know about that wonderful Golden Specific."
